

HQ InSight™ Table with built-in HQ InSight Stitch Regulation

Quilt while sitting down or standing up at your stationary longarm machine.

Innovation meets perfection with the HQ InSight Table featuring HQ InSight stitch regulation. Two patented table-top sensors track the movement of the quilt across the table, signaling the longarm machine to create perfectly-regulated stitches. Comes standard with the HQ Capri™ stationary longarm. The HQ InSight Table is available as an upgrade to add built-in stitch regulation to your TruStitch-ready HQ Sweet Sixteen®. See your local HQ retailer for details.

HQ InSight Table Features

- Adjustable table height from 25.5 to 39.5 inches
- Built-in stitch regulation

OPTIONAL ACCESSORIES

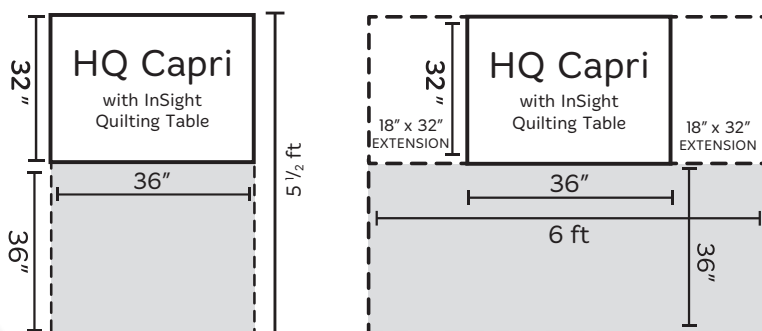

- 18-inch by 32-inch HQ InSight Table Extension
- HQ Mini Casters
- HQ InSight Table Drawer

HQ InSight™
Table Drawer

HQ Capri with HQ InSight Table

HQ InSight Table Extension

Add an extra 18" to the width of your HQ InSight Table with the HQ InSight Table Extension. Easy to install, these extensions pop up when you need them and fold down for storage. Can be added to left, right, or both sides.
